Director's Message

Welcome to Continuing Legal Education (CLE) of the School of Law, Singapore Management University.

We offer professional and executive programmes for the legal profession as we continue to strengthen SMU's relevance for Singapore's legal profession.

CLE endeavours to work closely together with law firms, corporate counsel, judicial and legal officers, and other members of the legal fraternity to conduct courses, seminars and workshops that are relevant and useful to the legal profession and the practice of law. Our programmes are designed to consolidate and upgrade your understanding of the law and to keep abreast of significant developments in particular areas of law. In addition, we want to provide a platform for you to interact and learn from your peers as well as to exchange views and experiences.

We look forward to seeing you at our events!

Calling All Legal Professionals!

Law changes so quickly in modern conditions that all legal professionals have to take serious steps to keep up to date. You want to be brought up to speed on the latest developments in the law without having to invest large amounts of time, efforts and resources. You also want to stay connected with the legal fraternity.

CLE Can Help You Achieve Just That!

Our programmes are conducted by instructors who are full-time faculty members of SMU's School of Law, visiting faculty, adjunct faculty as well as other senior practitioners. The areas of expertise range from intellectual property and information technology laws, corporate and commercial laws, litigation, banking and finance laws to international laws as well as other new and emerging areas of law.

Seminars & Workshops

CLE organises public seminars and workshops throughout the year for the legal community. The invited speakers from the academia and industry will provide updates and insights which are of interest and relevance to the legal profession. These events also provide appropriate fora for members of the legal fraternity to interact and exchange views.

Some of the seminars we have conducted include:

- Agreements on Jurisdiction and the Growing Complexity of Commercial Disputes
- An Overview of Debt Finance
- Misrepresentation, Contract Clauses and Estoppel: Understanding the Complexities and Controversies
- Recent Developments on Sale of Goods
- Recent Judicial Developments on Costs: Practice, Penalties and Professional Responsibility
- Regulation of Financial Advisors in the Post-Lehman Era: The Changing Singapore Legal Landscape
- The Vietnamese Legal System and Issues for Investors in Vietnam

Customised Programmes

CLE will work with interested firms and organisations to offer customised programmes in line with the unique requirements of each firm and organization. You can leverage on our large pool of SMU faculty with postgraduate degrees from renowned universities worldwide such as Harvard, Yale, Stanford, Oxford, Cambridge, Bristol and London, and industry partners for your organisation's training and development.

Auditing Programme

To continually upgrade your legal knowledge in particular areas of law, you may apply to audit selected courses in our LL.B. and J.D. programmes offered by the SMU School of Law.

Persons auditing the courses are welcome to attend and observe seminars taught by our instructors. A certificate of participation will be awarded at the end of the course, provided that the person auditing the course has attended at least 90% of the relevant classes.

There are different courses available for auditing participants with and without prior legal training.
