

2) ใช้ Pronoun reference

เป็นการเชื่อมโยงความคิดเพราะอ้างถึงสิ่งที่กล่าวมาแล้ว

ตัวอย่าง he him it ...

These theories They.... Them

He him it this that these those here there

ตัวอย่าง

As “thinking about thinking” (Anderson, 2002; Flavell, 1979), metacognition consists of an understanding or perception of the ways different factors act and interact to affect learning. It is the knowledge that learners possess about cognitive processes and how they function. ...

Perseverance, even when tasks are dull and interesting, is confirmed as a major determinant of success (Carroll, 1963). This factor positively correlates with both written and total achievement measures (Table 6).
